1 Outlook Description

2 Power Button Usage

Turn On: Press the power button and hold for 2 seconds.

Turn Off: Press the power button and hold for 2 seconds → **tap** Power off → tap **OK**

Sleep Mode On/Off: Press & release the power button quickly to turn sleep mode on and off.

3 Touch-Screen Navigation

The touch-screen allows for quick, easy and convenient navigation for all applications.

Throughout the User Guide, you are instructed to use the following tap or touch navigation methods:

Tap: quick tap & release on an item on the screen.

Finger slide: touch & slide your finger across the screen and then release.

Touch & hold: touch and hold in place approx 2 seconds, and then release to display an options window.

Note:

To avoid scratching or crushing, do not place objects on the touch screen surface.

4 Using microSD Card

- Insert your card into the microSD slot until it clicks into place. When ready for use, it's OK.
- Remove microSD Card
- Close all applications or documents which have been opened on the card. Press Settings → Storage → SD Card → Unmount Storage → OK.

Note:

Don't insert and remove the SD card repeatedly in a short time, as this may cause damage to the card.

5 Getting Started

Charge the device

Note:

You cannot charge the battery using the USB cable.

You can use the device while the battery is charging, although the charging time is longer when operating and charging at the same time.

- Plug the power adapter into an electrical wall outlet named DC, and then connect to the device to fully charge the battery before use (approx. 4hour).
- While charging, the battery indicator light is red. When fully charged, the battery indicator light is off

Turn the device on

Press the power button and hold for 2 seconds.

Start Wi-Fi Network

- **Turn on Wi-Fi**

Getting walking/transit/driving direction

Finding your friends with Google Latitude

Google Latitude lets you and your friends view each others' locations on maps and share status messages with each other.

- **Join Latitude**

- While viewing a map touch settings and touch **Join Latitude**.

The first time you join Latitude you're prompted to accept or reject the Google privacy policy.

- **Open Latitude**

After you join Latitude, you can open it to find your friends and view their updates. While viewing a map, touch settings and touch **Latitude**

- **Invite friends to share their locations**

After you join Latitude, you can start to share your location with your friends. Only friends whom you have explicitly invited or accepted can see your location.

1. Open Latitude touch settings and touch **Add friends**

2. Touch Select from Contacts or Add via email address in the menu that opens.

If you touched **Select from Contacts**, a scrolling list of all your contacts opens. Check all of the contacts you want to invite.

If you touched **Add via email address**, you can enter one or more email addresses, separated by commas, of the friends you want to invite.

3. Touch Add friends at the bottom of the screen.

If your friends already use Latitude, they receive an email request and a notification on Latitude. If they have not yet joined Latitude, they receive an email inviting them to sign into Latitude with their Google Account.

- **Respond to an invitation**

When a friend invites you to share your location in Latitude, you can respond in the following ways.

Accept and share back You and your friend can see each other's locations.

Accept, but hide my location You can see your friend's location, but they can't see yours.

Don't accept No location information is shared between you and your friend.

- **View your friends locations**

You can view your friends' locations on a map or in a list.

Your friends' locations are shown when you open Maps. Each friend is represented by their picture from Contacts with an arrow that points to their approximate location. If a friend has chosen to share city-level locations, their picture doesn't have an arrow and appears in the middle of the city.

- **Manage connections with your friends**

Touch a friend's contact details balloon in Map view or touch a friend in List view to open the friend's profile. In the Profile screen, you can communicate with your friend and set privacy options.

Show on map Shows the friend's location on the map.

Chat using Google Talk Opens a Google Talk chat window with that friend. Send email Opens Gmail with a message addressed to the friend. Directions Gets directions to the friend's location.

Hide from this friend Stop sharing your location with this friend in Latitude, in a list or on a map. To share your location with this friend again, touch **Unhide from this friend**.

Share only city level location Share only the city you are in, not your street-level location. Your friend sees your picture in the middle of the city you are in. To share more precise locations again, touch **Best available location**.

Remove Remove the friend from your list and stop sharing locations altogether.

- **Control what you share**

You have control over how and when your friends can find you in Latitude. Only the last location sent to Latitude is stored with your Google Account. If you turn off Latitude or are hiding, no location is stored.

Open Latitude, touch your own name, and touch **Edit privacy settings**. You can set the following privacy options.

Detect your location Let Latitude detect and update your location as you move. The update frequency is determined by several factors, such as your device's battery charge level and how recently your location has changed.

Set your location Set the location shared with others as an address you enter; or, from Contacts, pick a spot on a map, or resume having Latitude share your actual location.

Hide your location Hide your location from all your friends.

Sign out of Latitude Disable Latitude and stop sharing your location or status. You can always join Latitude again

25 News and Weather

Touch the widgets “News and Weather” on the home screen. or tap the  **News and Weather** application icon.

The first time you open News and Weather, the below page is displayed

Tap to open **weather settings** screen

Weather setting

- **Use my location** Select this option to display weather information which is used to determine your device's location. If location can't be determined automatically, unselect this to set the location manually.
- **Set location** Unselect **Use my location**, you can manually set your location by tapping **set location**.
- **Use Metric** Select this option to toggle metric or imperial units

26 Books

Connect the books

Tap the  application icon to open the books, touch  on the top of the screen to search books

27 Wi-Fi

Connecting to Wi-Fi networks

1. Press **Settings** -> **Wi-Fi**
2. Check **Wi-Fi** item on the top of the screen to turn it on
3. Touch a network to connect to it

Note:

- If the network is open, you are prompted to confirm that you want to connect to that network by touching **Connect**.
- If the network is secured, you're prompted to enter a password or other credentials. (Ask your network administrator for details.)

Receive notifications when open networks are in range

By default, when Wi-Fi is on, you receive notifications in the Status bar when your device detects an open Wi-Fi network.

1. Turn on Wi-Fi, if it's not already on
2. In the Wi-Fi settings screen, check Network notification.
You can uncheck this option to stop receiving notification.

Add a Wi-Fi network

1. Turn on Wi-Fi, if it's not already on.
If you're adding a Wi-Fi network when first setting up your device, Wi-Fi is turned on automatically.
2. In the Wi-Fi settings screen, touch **Add network** (at the top of your screen).
3. Enter the SSID (name) of the network. If the network is secured, touch the Security menu and then touch the type of security deployed on the network.
4. Enter any required security credentials.
5. Touch **Save**.
The device connects to the wireless network. Any credentials that you entered are saved, so you are connected automatically the next time you come within range of this network.

Forget a Wi-Fi network

You can make the device forget about the details of a Wi-Fi network that you added—for example, if you don't want the device to connect to it automatically or if it is a network that you no longer use.

1. Turn on Wi-Fi, if it's not already on.
2. In the Wi-Fi settings screen, touch & hold the name of the network.
3. Touch **Forget** in the dialog that opens.

Wi-Fi Settings screen

In addition to the settings described in this section, you can press **Menu** and Advanced Wi-Fi settings as described in “**Advanced Wi-Fi**”

● Wi-Fi

Check to turn on Wi-Fi so you can connect to Wi-Fi networks. When connected to a

network, displays the network's name.

- **Wi-Fi networks**

Displays a list of Wi-Fi networks you've previously configured and those detected when the device last scanned for Wi-Fi networks.

- **Add Wi-Fi network**

Opens a dialog where you can add a Wi-Fi network by entering its SSID (the name it broadcasts) and security type.

Advanced Wi-Fi settings screen

- **Network notification**

Check to receive a notification when an open Wi-Fi network becomes available.

- **Keep Wi-Fi on during sleep**

Opens a dialog where you can set whether and when the Wi-Fi radio disconnects. Disabling sleep uses more battery power.

- **MAC address**

The Media Access Control (MAC) address of your device when connecting to Wi-Fi networks.

- **IP address**

The Internet Protocol (IP) address assigned to the device by the Wi-Fi network you are connected to (unless you used the IP settings to assign it a static IP address).

28 ACCOUNTS

Adding and removing accounts

- **Add an account**

1. Open the Accounts & Sync Settings screen:

Press **Settings** -> **Accounts & Sync**

2. Touch **Add account** on the top of the screen.
3. Touch the kind of account you want to add
4. Follow the steps displayed on the screen to enter the required and optional information about the account.

- **Remove an account**

1. Open the Accounts & Sync Settings screen:
Press **Settings** -> **Accounts & Sync**
2. Touch the account to delete
3. Touch **Settings** on the top of the screen and then touch **Remove account** on the dropdown menu.
4. Confirm that you want to remove the account

Configuring account sync and display options

- **Configure general sync settings**

1. Open the Accounts & Sync Settings screen:
Press **Settings** -> **Accounts & Sync**
2. Check or uncheck **Auto-sync** to control whether changes you make to information on the device or on the web are automatically synced with each other.

- **Sync information manually**

1. Open the Accounts & Sync Settings screen:
Press **Settings** -> **Accounts & Sync**
2. Touch the account whose data you want to sync.
3. touch **Menu** on the top of the screen and touch **Sync now** on the dropdown menu.

- **Change an account's sync settings**

1. Open the Accounts & Sync Settings screen:
Press **Settings** -> **Accounts & Sync**
2. Touch the account whose sync settings you want to change
3. Check or uncheck the kinds of information you want to sync to the device.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

FCC15.105: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radiofrequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
