MBR 144 OEM FCC and ISED approval – Cover letter

This is to request Nemko Canada Inc to provide the required service enabling us to achieve FCC and ISED certification for the MBR 144 equipment manufactured by Kongsberg Seatex AS.

The Maritime Broadband Radio is a smart antenna designed for use in maritime applications where digital high-speed reliable communication and data transfer is crucial for efficient and safe operation. The MBR 144 versions has a phased array consisting of 4 antennas and can real time adjust phase and amplitude in order to increase gain in the direction of the receiver.

Yours faithfully

David Møller Hagen
