

# 1/18 FULL FUNCTION RADIO CONTROL LOWRIDER

- Please read carefully before operating.
- Warning! Use under direct supervision of an adult.
- Keep the operation manual and display box for reference.
- Use 5 AA Alkaline (1.5 V) not included & 1 - 9V battery not included.
- 6.0 V rechargeable battery pack can also be used for this item.
- Operating range is up to 30 feet. Subject to outside radio interference.

## TRANSMITTER BATTERY INSTALLATION

### CAUTION WHEN USING BATTERIES

- Install batteries making sure that the + and - poles of the batteries are positioned correctly.
- Make sure the transmitter & vehicle on/off switch is in the OFF position when installing batteries.
- Remove all batteries from the vehicle and the transmitter after playing.

1. Remove battery door in back of transmitter.
2. Insert 9 volt battery compartment.
3. Replace battery door.

## VEHICLE BATTERY INSTALLATION

1. Remove battery door from the underside of the vehicle with screwdriver.
2. Insert 5AA batteries or 1-6.0 volt rechargeable battery.
3. Replace battery door.

- Do not mix old and new batteries.
- Avoid mixing alkaline, standard (carbon-zinc), or rechargeable (nickle-cadmium) batteries.

### CAUTION

- Avoid combined use of charged Ni-Cd and discharged Ni-Cd batteries.
- Do not mix old and new batteries.
- Avoid using alkaline batteries and Ni-Cd batteries together.

Three major causes of vehicle malfunction:

1. Weak batteries
2. Incorrect battery installation
3. Radio interference

## HOW TO OPERATE VEHICLE

1. Turn the vehicle and transmitter ON/OFF switch to the ON position.
2. The first toggle on the left side on the transmitter will move the vehicle forward when pushed. The vehicle will move in reverse when the toggle is pulled back towards you.
3. The last toggle on the right will steer the vehicle either left or right.

### NOTE

- When the vehicle slows down or starts moving erratically, replace all dying batteries with fully charged batteries.

## OPERATING SAFETY RULES

Select a SAFE place to operate your vehicle. Do not drive in the street. Avoid driving on SAND or through puddles of WATER. These hazards can impair performance. Check the surface ahead of you and watch for obstacles. The radio receiver in your vehicle and transmitter are sensitive instruments. Do not leave vehicle or transmitter near sources of HEAT or DIRECT SUNLIGHT for long periods of time.

Avoid leaving vehicle or transmitter outside overnight. NIGHT DAMPNESS IS HARMFUL TO INTERIOR MECHANISM.

## RADIO INTERFERENCE

Sometimes erratic behavior or loss of control of vehicle is the result of interference caused by high tension wires, high voltage transformers, certain types of buildings, concrete walls or narrow places where radio signals

sent from your transmitter may be scattered thus making it difficult for your vehicle to receive a good radio signal. If you encounter this type of behavior or loss of control, change to a different location. You will encounter interference if another radio controlled vehicle or CB radio is operating in the vicinity on your same frequency.

### CAUTION

Keep out of reach of small children under 36 months old as there is danger of getting hurt.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Your R/C vehicle might cause TV or radio interference even when it's operating properly. To determine whether your R/C car is causing interference, turn off your R/C car. If the interference goes away, your R/C car is causing the interference.

Try to eliminate the interference by:

- Moving your R/C car away from the receiver.
- Contact you local store for help.

If you cannot eliminate the interference the FCC requires that you stop using your R/C car.

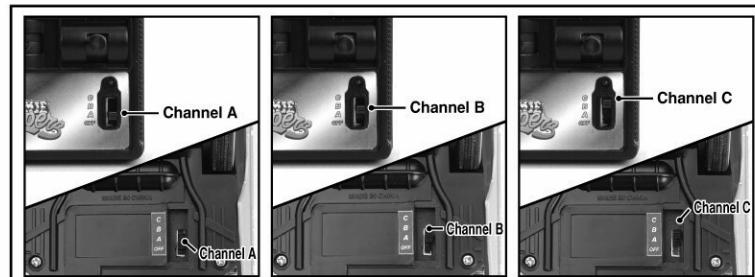

**IT IS A VIOLATION OF THE FCC REGULATIONS TO REMODEL OR ALTER THIS DEVICE IN ANY WAY WITHOUT PERMISSION. ANYONE WHO VIOLATES THE REGULATIONS WILL LOSE THE RIGHT TO OPERATE THE DEVICE.**

### FCC Statement

NOTE : This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures :

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE : The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user authority to operate the equipment.
