Columbia, MD 21046**

Attention: OET Dept.

FCC ID: Q9DAP104

Regarding Class III Permissive Change Application to add DFS Bands

We would like to add operation in 5250-5350 and 5470 - 57250 MHz UNII DFS bands to our existing FCC Grant.

There is no hardware changes implemented on the device, only via Aruba Networks controlled Software new DFS bands will be enabled. Details on how ArubaOS implement and control security in order to prevent specifying/changing radio parameters that would violate FCC Grant are described in submitted Security Description for SDR Application document.

Sincerely,

Ivaylo Tankov
Compliance Manager
Aruba Networks Inc.
