

## **INTERTEK TESTING SERVICES**

---

---

### **Purpose of Application**

The purpose of this application is to report changes in the previous certified product for product reason. The main modification is adding TAD PCB and answering machine function on the base unit. The software of the handset is the only change for remote answering machine function, and this does not affect the EMC power or field strength. The RF module of base unit is remained the same. All other designs including electronic, electrical, mechanical, and cosmetics design are identical.
