Dear Sir,

We respectfully request that the schematic diagram, block diagram, circuit description and internal photographs submitted with this application for Certification under FCC ID: Q9V-360-A be withheld from public disclosure. This request is made under the provisions of Section 0.457 (d) and 0.459 (b) of the Commission's rules and Section 0.552 (b) (4) of the Freedom of Information Act.

The items listed above contain trade secrets and proprietary information not released to the public and if disclosed to the public may be harmful to the applicant, advantageous to competitors and place Radianse, Inc. at a competitive disadvantage. We request confidentiality of the internal photographs for the following reasons:

- The device does not contain any user replaceable parts, cannot be serviced by the user and shall not be opened by anyone except company employees
- The device contains proprietary circuitry and antenna that is considered a trade secret of the company

Thank you for your attention to this matter.

Sincerely,

Scott Wentworth
Branch Manager
