

# **88000 Walkie Talkie**

## **OPERATION MANUAL**

### **TO OPERATE:**

1. Open the battery door, and put 6 pcs of "AA" batteries into right side. Batteries should be full of energy for using in this product. Turn the ON / OFF switch to the ON position. Move the antenna cover to the screw, and the Walkie Talkie is under the receiving situation with the interference noise.
2. When the Walkie Talkie is under the receiving situation, you will receive the signal and hear the sound from the other side. Put the switch to the "SQL" and the Walkie Talkie would become silence. At the time, you can only hear a clear voice from the other side without any interference noise.
3. Press the transmit mode and talk to the MIC, and the other side will hear your voice.

### **FCC STATEMENT**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

### **CAUTIONS**

1. If your walkie talkie does not operate properly, try a new set of battery.
2. After use, always turn off the walkie talkie.
3. Do not touch antenna with your fingers or hand, while you are using walkie talkie. It will cause weak transmissions.
4. Your walkie talkie set has been fully adjusted prior to shipment from the factory. Do not touch the internal parts other than to replace the battery.
5. Avoid using it in hostile environment, such as dusty, humid and high temperature environment.
6. Keep away from telecommunication building, elevator chamber and places where strong interference exists
7. To clean the walkie talkie, wipe with a soft cloth dampened with water. Do not use corrosive chemical solvent to clean the dust on the surface.
8. Remove the batteries when walkie talkie is not use in a long period that can prevent the walkie talkie destroyed by corrosive chemical

### **NOTE:**

This equipment has been tested and found to comply with limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Modifications not authorized by the manufacturer may void users authority to operate this device'
