> Hi Mr. Kim:

>

> Question #5: Section 3.3 of test report indicated the measurement was made  
> with average detector. Please also provide peak reading by comparing peak  
> limits ( average limit + 20dB).

==> We've revised the test report.

Please refer to the page 11 of test report

> Question #6: Antenna Connector:Section 3.5 of test report indicated the  
> antenna connector is uniquely coupled to the transmitter unit. Please  
> explain and provide the a close up photo to demonstrate the antenna  
> connector is unique connector.

==> The antenna in the box set is specially designed.(Refer to the attached photo)  
So, the warning statement for using the supplied antenna will be inserted in  
the User's manual as follows;

"Other products may exceed FCC rules and cause the malfunction."
