July 10, 2002

RE: Ryko Manufacturing Company

FCC ID: QBGUS2001OHDTX

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Please provide a FRN Number for Internet Telemetry. This is now required for all Grantees - (reference MD Docket No. 00-205). To obtain an FRN online, visit the FCC's Web site at www.fcc.gov and click the Commission Registration System (CORES) link. For further assistance, please either refer to the FAQ at this same link; contact the CORES helpdesk at CORES@fcc.gov; or call the CORES helpdesk toll-free number: 1-877-480-3201.
- 2) Please provide a clearer photograph of the bottom of the PWB (internal photograph).
- 3) FYI. Since the RF output power of devices falling under 15.231 are so low, the FCC does not require RF exposure exhibits for these types of devices. Therefore, any RF exposure information will not be reviewed.
- 4) Please note that the phrase "FCC ID: QBGUS2001OHDTX" must be contained on a single line. Please provide a corrected labeling exhibit (CFR 2.925(a)(1)).
- 5) Since the EUT contains a modular component for the TX circuitry, please provide a parts list that shows this part from an OEM manufacturer. If necessary, please update the confidentiality letter.
- 6) The following exhibits are currently missing: Operational Description, Test Report, Users Manual, and Test Setup Photos.

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
