Applicant: Redline Communications Inc.
FCC ID: QC8-RDL3000RMF
RE: Class II Permissive Change for RDL-3000-RMF

To whom it may concern:

The module RDL-3000-RMF is only installed in the factory in the devices/enclosures produced by Redline Communications. The professional installer doesn't install the module, only the final product. Therefore there are no instructions for module installation.

The final product installation instructions are in the attached guides. There are currently three enclosure models: Edge, Ellipse and eLTE-MT containing RDL-3000-RMF.

Sincerely,

A handwritten signature in black ink that reads "Rod Cronin".
