Subject: **Limited Modular Approval Letter, FCC ID: QCI-IDQXMOD1**

Dear Application Examiner:

**SMART Technologies Inc.** is seeking limited modular approval for SMART QX Series BLE radio module **Model: IDQXMOD1, FCC ID: QCI-IDQXMOD1**. The radio meets the requirements for limited modular approval as detailed in FCC 15.212(b).

Compliance to each of the requirements is described below:

- 1. “The modular transmitter must have its own RF shielding.”** – Non-compliant; the radio portion of the module is not contained in its own RF shielding. Please see the Internal Photos exhibit.
- 2. “The modular transmitter must have buffered modulation/data inputs.”** The EUT has buffered data inputs to ensure compliance with Part 15 requirements under conditions of excessive data rates or over-modulation. Please see the Schematics exhibit.
- 3. “The modular transmitter must have its own power supply regulation.”** The EUT has its own power supply regulation to ensure compliance with Part 15 requirements regardless of the quality or level of external DC supplying the module from the host unit. Please see the Schematics exhibit. Also, the technical report exhibit contains AC power line conducted emissions data taken with the EUT powered from a linear power supply that contains no EMC suppression components.
- 4. “The modular transmitter must comply with the antenna requirements of Section 15.203 and 15.204(c).”** The EUT meets the FCC antenna requirements. Please see the Antenna information exhibit and internal photos exhibit.
- 5. “The modular transmitter must be tested in a stand-alone configuration.”** The EUT was tested in a stand-alone configuration. The module was greater than 10 cm from the host device. Please see the test setup photos exhibit and technical report exhibit.
- 6. “The modular transmitter must be labeled with its own FCC ID number.”** The EUT is labeled with the FCC ID. Please see FCC ID label & location exhibit.

**7. “The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.”** The EUT is compliant with all applicable FCC rules. Detailed instructions for maintaining compliance are given in the User Manual.

**8. “The modular transmitter must comply with any applicable RF exposure requirements.”** The EUT is compliant with all applicable RF exposure requirements. Please see the RF Exposure Exhibit.

Please contact me if you have additional questions. Your attention to this matter is greatly appreciated.
