User's Manual

Remove the battery cover, install 2 "AA" batteries into the chamber. Tune you FM radio to 100 Hz.

To Adjust Transmitting Frequency:

1. If you find a commercial station is too near 100 MHz, tune your rado to either side of 100 MHz.
2. Turn on the transmit switch on you mike and by using a small screwdriver, adjust the transmitting frequency. The can be done by gently turning the adjusting screw slightly in either direction until you hear your voice clearly.
3. Turn on the transmit switch, talk into the microphone and turn the radio dial up and down until you hear your voice.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by ubauthorized modifications to this equipment. Such modifications could void the User's authority to operate the equipment.

Sincerely,

Sam Chiu

Marketing Executive
