Question #1: Please provide a technical specification sheet to describe the
radio functions of this device. From the block diagram, this device is
capable of operating other protocols other than GSM/GPRS functions.

Question #2: Which class of phone is this device (Class A , B or C) ?

Question #3: Which GPRS class was used during Part 24 tests ?

Question #4: Please correct the occupied BW units as indicated in page 17

and page 19 of test report.

Question #5: There is no RF exposure information contained in the user manual. Please provide revised user manual and also reduce the size of files. The file size submitted is 27MB. Please make use to submit the attachments with file size less than 3MB.

Question #6: There is SAR test report submitted. Please provide SAR test report with support attachments.

Technical and administrative have not yet completed due to lack of required information.

Best Regards

Mike Kuo
