RE: Chi Mei Communications Systems, Inc.

FCC ID: QDJ-0406CHAI1 Permissive Change

After a review of the submitted information, I have a few comments on the above referenced Application.

Administrative Issues Part 22/24:

- 1) It appears that many antenna conducted measurements were not remeasured. From your description of the change it is uncertain if there are any matching component changes that could affect these results. Please explain.
- 2) Are there any changes that would affect the schematics or block diagrams previously provided? If so, new exhibits should be provided. Note that if any of these need to be provided, please provide a confidentiality letter as necessary.
- 3) The probe factors listed on page 12 do not appear to match those used.
- 4) Please update the plots to show the position of the EUT overlayed on the plots.
- 5) Please provide Z-axis plots for both worse case 850 and 1900 MHz.

Timothy R. Johnson
Examining Engineer
