

Chi Mei Communications Systems, Inc, Model No: EDS01
FCC ID: QDJ-200205ED01

Date of Test: March 21 to 22, 2002

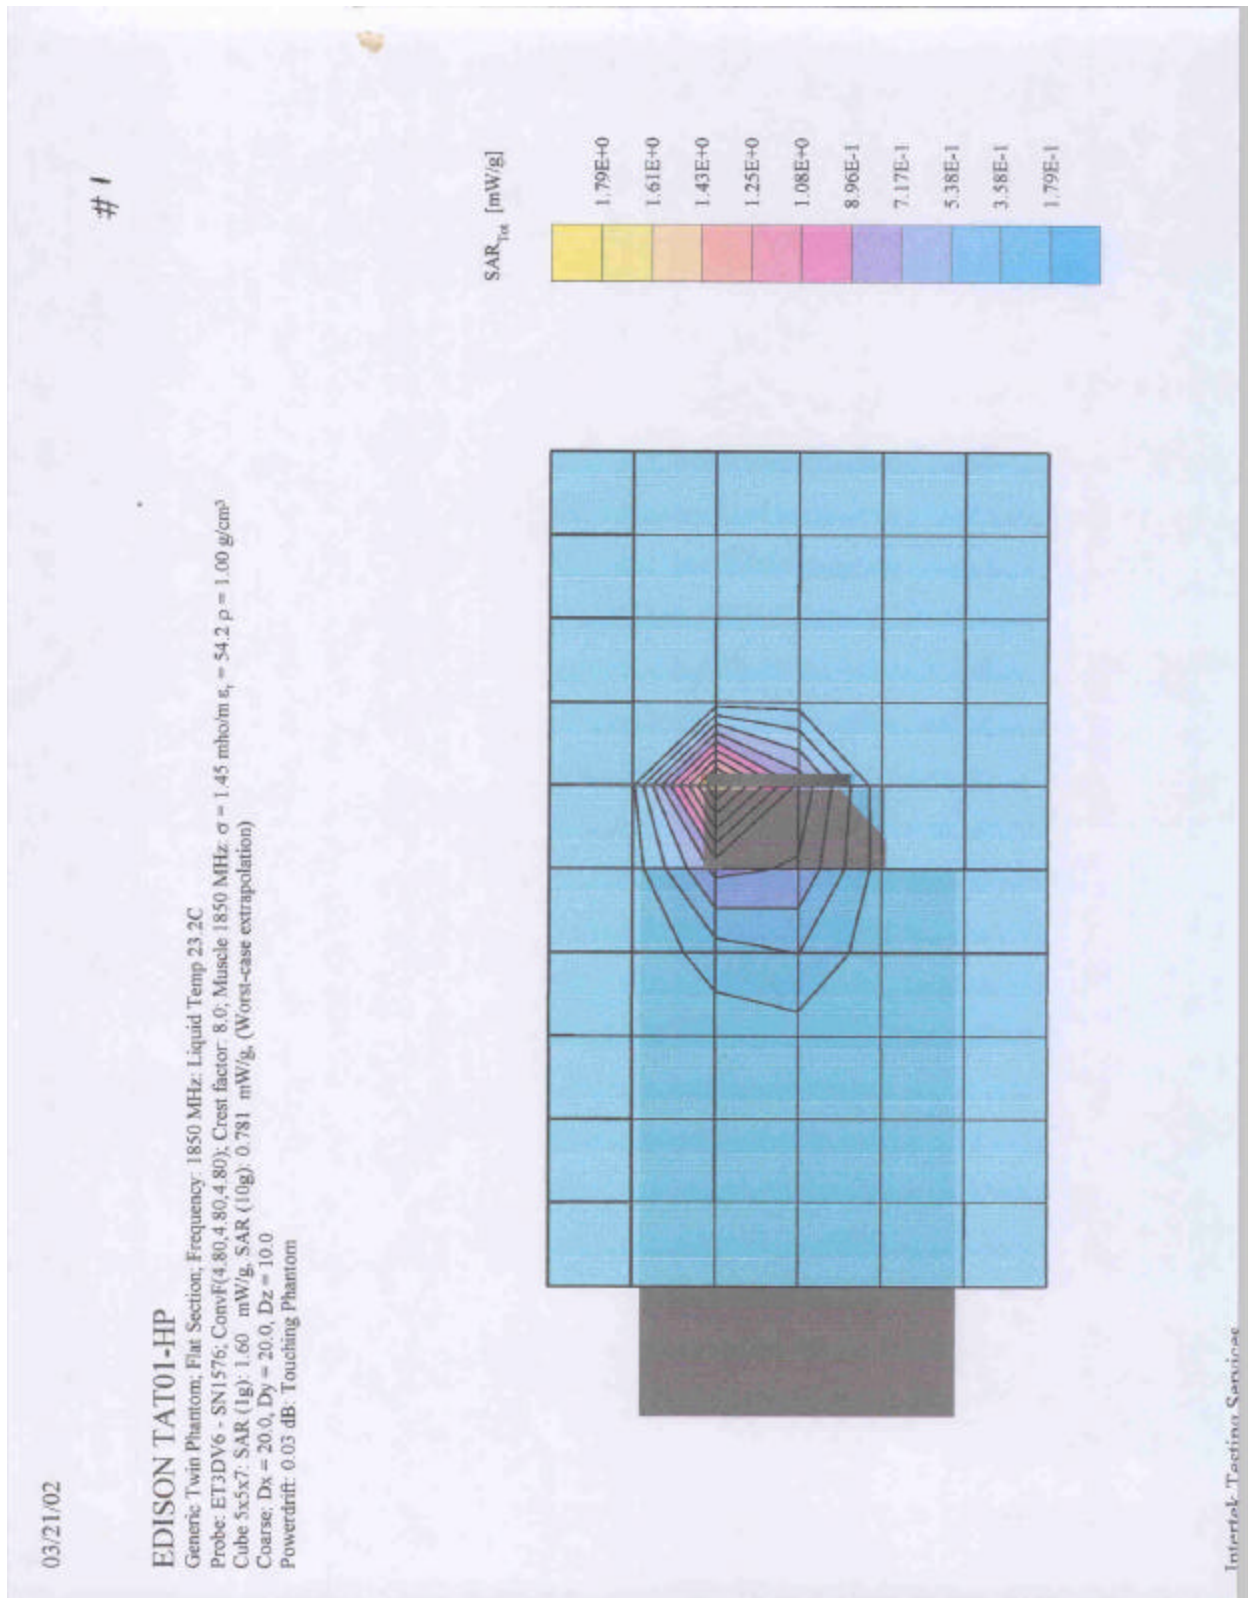

APPENDIX A - SAR Evaluation Data

Please note that the graphical visualization of the phone position onto the SAR distribution gives only limited information on the current distribution of the device, since the curvature of the head results in graphical distortion. Full information can only be obtained either by H-field scans in free space or SAR evaluation with a flat phantom.

Power drift is the measurement of power drift of the device over one complete SAR scan.

Chi Mei Communications Systems, Inc., Model No: EDS01
FCC ID: QDJ-200205ED01

Date of Test: March 21 to 22, 2002

Chi Mei Communications Systems, Inc, Model No: EDS01
