Hi Tim,

Below are the answers to your questions on the above application:

Q1. The user manual does not contain RF exposure information. Please revise the user manual.

<CCS ANSWER:> Please see attached page to be inserted into the final manual.

Q2. The user manual does not include a statement advising that use of 5.15-5.25 GHz is limited to indoor operation only. Please revise the user manual.

<CCS ANSWER:> Please see attached page to be inserted into the final manual.

Q3. Pages 150-155 include instructions for removal and installation of the device. This is in conflict with the grant conditions. Please revise the user manual.

<CCS ANSWER:> The user manual is not revised for this item, however, a bios lock document has been provided which addresses this problem. The bios lock document is to be considered confidential, and a Request for Confidentiality is provided here as well as the bios lock document.

Thanks and best regards,

September

AN07T7202 and AN07T7203, Notice#1

Hello September,

I am sending this directly to you (cc: Thu) as I believe all items are ones that you will handle.

This notice is combined with AN07T7202 as all items relate to the user manual used for both applications. A separate notice for AN07T7203 will not be sent. The reply to this notice will be used for both applications.

Q1. The user manual does not contain RF exposure information. Please revise the user manual.

Q2. The user manual does not include a statement advising that use of 5.15-5.25 GHz is limited to indoor operation only. Please revise the user manual.

Q3. Pages 150-155 include instructions for removal and installation of the device. This is in conflict with the grant conditions. Please revise the user manual.

Best regards,

Tim Dwyer
