Attn: OET Dept.

Ref: FCC Class II Permissive change for FCC ID: QDS-BRCM1054
Applicant: Broadcom Corporation

Dear Examiner,

This is to request a Class II permissive change for FCC ID: QDS-BRCM1054, originally granted on 12/17/2010.

The changes filed under this application are:

Change #1 Added alternative Murata FEM (front end module) solution (U2, U3) to the TDK FEM.

Change #2 Changed U4 from a fixed 1.2V voltage regulator to an adjustable regulator in the same family. This is the voltage to the analog baseband circuitry and does not impact the RF or PA circuitry.

If you have any questions regarding this application, please feel free to contact me.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'DL', is written over a white background.
