Ref: FCC Class II Permissive change for FCC ID: QDS-BRCM1058  
(Original Grant Date: 6/29/2011)  
Applicant: Broadcom Corporation

Dear Examiner,

This is to request a Class II permissive change for FCC ID: QDS-BRCM1058. There are no hardware or electrical modifications made to the applying modular transmitter.

The major change filed under this application is:  
Change #1 Adding a portable platform, Lenovo model: TP00056A.

A representative host is selected for SAR evaluation. The closest antenna-to-user distance is 12.83mm. The representative host has the same antenna type as originally approved with lower gains.

Installation and operating requirements, including restrictions for the most conservative antenna-to-user separation distance and host platform(s), approved in the equipment authorization are documented in the OEM integrators instruction including the information to the end users on how to comply with RF exposure requirements.

If you have any questions regarding this application, please feel free to contact me.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'Daniel Lawless', is positioned above a horizontal line.
