Dear Sir:

This is to confirm and explain the modification of our product submitted to apply for FCC Class II Permissive Change.

Due to the cost down consideration, we just changed the bluetooth chip provider. For original version, the provider is MICROTUNE and the chip model is MT0750. For serial version, the provider is CSR and the chip model is BC02. After we re-investigated the all requirements of FCC rules, we found the result was still complying with the limitation.

Please kindly accept this Class II permissive Change. If you have any further questions about this modification, please contact us. Thank you in advance.

Best regards,

By: Alex Yang By: Alex Yang
