

# Mobile Hand Free Kits Manual

## Advantage

- Low consumption, Low radiation R.F hand free kits.
- Low noise voice/signal transmission
- Rechargeable lithium battery
- Automatic turn off when power is low
- Battery is easily changed with the backup recharge set.

## Operation

1. Put the transmitter into the ignition
2. Connect the audio cable to your cell phone.
3. Turn on the earpiece power to receive incoming calls.
4. Turn it off while finish talking and put it back for recharging.

( P.S. If the earplug is too small, put the sponge cover. )

## Specification

PS. For Nokia: 3 & 8 series

For Motorola: 2088,2188,2688,T189,T190,T191,V3688,V8088,P7688,P7789,L2000,V60,V66

	Transmitter	Earpiece
Power Requirement	DC12V~24V	3V Lithium battery
Use Frequency	FM76~108MHZ	FM76~108MHZ
Receiving range	1~3M	1~3M
Weight	60g	12g

## 產品說明

本產品設計為小功率，低輻射之無線電收發機，對於人體絕無任何不良影響，傳輸語音清晰，耳機使用可充電式鋰電池，當耳機電力不足時偵測電路會切斷電源，此時可將電池取出放於發射器更換充電，再將有電之電池裝回耳機便可繼續使用。

## 使用說明

1. 將發射機置入點煙器孔。
2. 音源線接上手機耳機孔
3. 來電時將耳機電源打開，即可接聽。
4. 結束時將耳機電源關閉放回耳機座，繼續充電

(P.S.耳塞若太小，可加海綿套加大)。

## 規格

Notice: The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
