Preparing for Use

Before you can use cordless telephone ,you must charge the **HANDSET** for 12
 hours. Failure to do so will require recharging of the BATTERY PACK more often.
(**See page 26 for more information on the BATTERY PACK)**

1. Place the **HANDSET** on the **BASE UNIT** for 12 hours .
2. After 12 hours ,remove the **HANDSET** from the BASE UNIT.
3. Raise or reposition the **BASE UNIT ANTENNA** for the best reception.

NOTE:
Depending on the frequency of use, once the **HANDSET** is fully charged , it remains
 functional for approximately 4 hours of continuous use and approximately three days
when the **HANDSET** is off the **BASE UNIT** in STANDBY mode.

Receiving calls

1. When the phone rings, lift the **HANDSET** and
   press the (TALK) button. The **HANDSET** LCD
   Screen will display "CALLS" and "TALK",and
   the **BASE UNIT** IN USE LED indicator will
   light up.
2. Start your conversation
3. To end your conversation, either press the
   (TALK) button or place the **HANDSET** on the
   BASE UNIT. If you place the HANDSET on the
   BASE UNIT CHARGE CRADLE, you activate
   the automatic STANDBY feature.

Call Timer Display

Minutes

Seconds or Channel (Press the scan/del
button to display the channel).

Placing Calls

1. Press the (TALK) button, the Call Timer starts to count. The **HANDSET** LCD Screen will display "CALLS " and "TALK ", and the BASE UNIT IN USE LED indicator will light up.

2. Listen for a dial tone.

3. Dial the phone number.

4. when you have finished your call, press the (TALK) button again or place the **HANDSET** on the **BASE UNIT.**

NOTE: You can pre-Dial the phone number before you press the (TALK) button. The number displayed will be dialed once (TALK) is pressed.

Deleting All Records in the PHONE BOOK

1. Press the (DIR) button to enter the phone book list. (If the phone book is not full, the LCD screen will disply "NEWDATA", press scroll UP or DOWN to enter the phone book list)

2. Press and hold down the (DEL)/SCAN , the LCD screen will display "ERASE ALL"

ERASE ALL
10:00AM 11/18   10 TOTAL 0

3. Press (DEL)/SCAN again, the LCD Screen will display "ALL ERASED",and then return to the idle display.

Selective Deleting in the PHONE BOOK

1. Press the (DIR) button.

2. Press the SCROLL UP ⓐ or DOWN ⓥ button to find the record you want to delete.

3. Press (DEL)/SCAN button, the LCD Screen will display the "ERASE ITEM"

ERASE ITEM
#1 TOTAL #12

4. The record will be deleted if you press (DEL)/SCAN button again, and the LCD Screen will display the next record.

5. Press the (DIR) button to return to STANDBY mode.

Placing Calls from the PHONE BOOK

1. Press the (DIR) button.

2. Press the SCROLL UP (▲) or DOWN (▼) button to find the record you want to call.

3. Press the (FUNC)/MAIL button to change the format of the displayed number.
   Available formats Include:

Number of digits	Explanation	Example
Eleven digits	Long distance code "1" +3 - digit area cod +7 - digit telephone number.	566-327-4466
Ten digits	3-digit area code+ 7-digit telephone number.	1-566-327-4466
Seven digits	7-digit telephone number.	327-4466

4. Press the (TALK) button to dial the number displayed in the screen.

5. To end your conversation, either press the (TALK) button or place the HANDSET on the BASEUNIT.

NOTE: If the phone company does not supply all ten digits of an incoming caller, you will not be allowed to adjust the format of that number.

## Using the Headset Feature

Your telephone can utilize a headset (not included) to be connected to your **HANDSET** for you to enjoy hands-free communication. Insert the small plug at the end of the headset into the **HEADSET** JACK at the right side of the   HANDSET.   Follow   the   procedures discussed in "Receiving Calls "and" Placing Calls" to receive and place a call.

NOTE: When you plug the headset plug into the HEADSET JACK it automatically mutes   the   MICROPHONE   and SPEAKER of the HANDSET. Unplug the headset to return the HANDSET to normal use.

HEADSET
MICROPHONE
SPEAKER
HEADSET PLUG(2.5mm)
HEADSET JACK
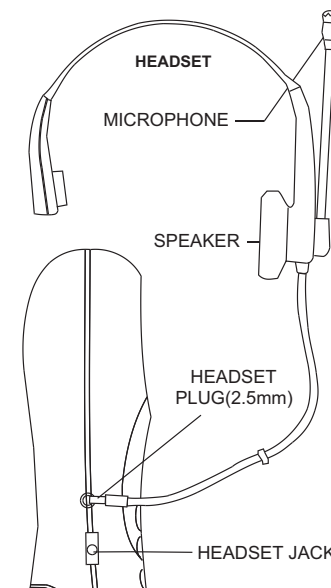

Redial Feature

1. If you get a busy tone, press the (TALK) button or place the HANDSET on the **BASE UNIT** to hang up.

2. Later, press the (TALK) button again.

3. Listen for a dial tone.

4. Press the (R/P)/*SAVE* button, this will automatically redial the last telephone number you called.

5. When you have finished with your call, press the (TALK) button again or place the **HANDSET** on the **BASE UNIT**.
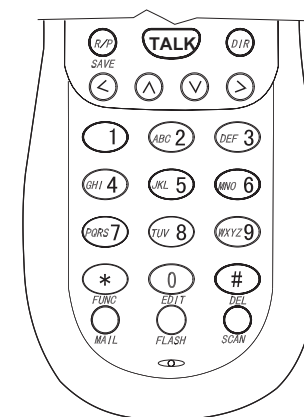

NOTE:
If you are too far away from the BASE UNIT, the HANDSET emits "beep"sounds to warn you that the Background noise level is too high for proper communication between the HANDSET and the BASE UNIT. When you hear this sound, you should move closer to the BASE UNIT to reduce the noise level. Otherwise, the call will automatically cut off.
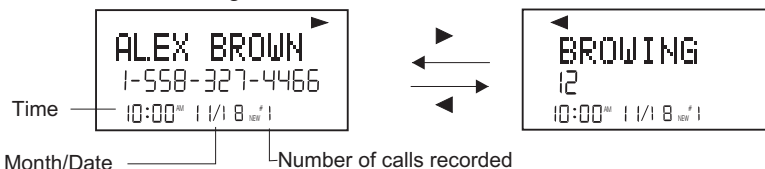

Caller ID System

This telephone automatically displays an incoming caller's name and telephone number together with the date and time of the call. It records up to 80 calls and stores the data in Memory.

IMPORTANT: You must subscribe to the Caller ID service from your local telephone company to utilize this feature.

Viewing Caller Information During Incoming Calls

1. When there is an incoming call, the name and the telephone number of the caller will automatically appear after the first ring. Press the SHIFT RIGHT ▷ button to view a name of more than 11 digits.
