1. Tele-Switch Introduction

Tele-Switch let you remotely wake your computer from anywhere over phone lines by using the X-DVR.
;You do not need to go to the place where the computer is located.

To use the Tele-Switch, the X-DVR Hardware(Main board, I/O board and cables etc.) already have to be installed in the PC.
So, this manual is made for users who already use the X-DVR system.

1.1. Items in the Package

- ✓ The Tele-Switch
- ✓ USB Cable
- ✓ Phone Line
- ✓ DC Adapter
- ✓ User Guide

If you miss any of these items, please contact our technical support.

1.2. Features

1) Voice Message : It will guide user for easy operation via voice message.

2) Convenience : In the case of user known its operation, it can be passed in the middle of voice message without listening message till the end (available for Mobile or international phone call).

3) Security : It requires the secret number approval for security.
Also, the number for password change is noted on the user manual to prohibit password change from others, not by voice message.

4) Initialization : In case of lost password, press RESET button longer than 3 sec.
Then it returns to default number, '0000' and 3 times of ringing.

2. Configuration & Installation

FCC Compliance

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES.
OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS:
(1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE,
AND (2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE
RECEIVED, INCLUDING INTERFERENCE THAT MAY CAUSE
UNDESIRED OPERATION

THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV
INTERFERENCE CAUSED UNAUTHORIZED MODIFICATIONS TO THIS
EQUIPMENT. SUCH MODIFICATIONS COULD VOID THE USER'S
AUTHORITY TO OPERATE THE EQUIPMENT.

USER INFORMATION

This equipment has been tested and found to comply with the limits
for a Class B digital device, pursuant to Part 15 of the FCC Rules.
These limits are designed to provide reasonable protection against
harmful interference in a residential installation.
This equipment generates, uses and can radiate radio frequency energy
and, if not installed and used in accordance with the instructions,
may cause harmful interference to radio communications. However,
there is no guarantee that interference will not occur in a particular
installation. If this equipment does cause harmful interference to radio or
television reception, which can be determined by turning the equipment
off and on, the user is encouraged to try to correct the interference by
one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to
  which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Customer Relation Desk

Strategic Vista Corp.Lorex's responsibility under this, or any other warranty, implied or expressed, is limited to repair, replacement or refund, as set forth above.　These remedies are the sole and exclusive remedies for any breach of warranty.　Lorex is not responsible for direct, special, incidental, or consequential damages resulting from any breach of warranty or under any other legal theory including but not limited to, loss profits, downtime, goodwill, damage to or replacement of equipment and property and any costs of recovering, reprogramming or reproducing any program or data stored in or used with a system containing the Product CD-ROM or accompanying software.
