Columbia, MD. 21046

Attention: Equipment Authorization Branch

HW ID: 5000 to 5100

For the application of FCC ID: QFXRM-691; during official testing, it was found to be necessary to change some of the hardware components. In addition, this resulted in a hardware ID change from 5000 to 5100

Internal conclusion was to retest different equipment classes as follows:

- 2.1053 Spurious radiated emissions (WCDMA 4)
- 27.50(d)(2) Radiated RF output power (WCDMA 4)
- 27.53(g) Band edge compliance (WCDMA 4)
- 2.1093 RF exposure (WCDMA 4)

The additional supporting test reports for HW ID: 5100 accompany this submission

Please note that both HW ID 5000 and 5100 are used for Bluetooth and WLAN testing. This is not due any Bluetooth/WLAN changes but due to the availability of test units at the time of testing.
