FCC ID	QGH-LEV300C
Agent	Kenneth Vannice
Approval Type	Original Single Modular
Equipment Class	DXT Part 15, Low Power Transceiver, Rx Verified
Rule Part	15.231

Overview

Leviton Manufacturing is seeking full modular approval of their low power transmitter, model LevNet RF 300C, under FCC rule part 15.231. The transmitter module, manufactured by ENOCEAN, operates at 315 MHz. The transmitter was tested as a standalone device. User manual and other documentation show the transmitter housed in Leviton's Model WSCOM-03W USB configuration, which connects directly to a computer and serves as a link in Leviton's RF network.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

A letter listing the applicable modular requirements was submitted.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
