Dear Application Examiner:

Leviton is submitting this application for the certification of their Model *LevNet RF 300C* transmitter, FCC ID: QGH-LEV300C. It is an unlicensed transmitter seeking modular approval under FCC 15.231.

This module is currently employed in Leviton *LevNet RF USB computer link*, Model: WSCOM-03W

The radio utilizes an RP-SMA 50 Ohm externally connected antenna ( $\leq 0\text{dBi}$ ). This configuration satisfies the requirements of 47 CFR 15.203.

The receiver portion of this radio transceiver has been verified to FCC 15B.

The technical reports and exhibits demonstrate compliance with FCC rules 47 CFR 15.231.

Your efforts in reviewing this application are greatly appreciated.

Best regards,

Leviton Mfg. Co., Inc.
