

Date: November 27, 2013

Itron OEMs:

This note serves as an additional agreement between Itron and its OEMs stating that the OEMs will use the Itron module OW31SASI5BE-1 in accordance with the FCC rules on limited modular approval devices. The unit will be professionally installed and all hosts will be tested for compliance with the OW31SASI5BE-1 module installed.

Confidentiality of the internal photos is being requested because this is a non-consumer device which is not accessible by the general public, professionally installed, and is only serviceable by the Itron, or designated technicians.

Please feel free to contact me with any questions.

Sincerely,

A handwritten signature in dark ink, appearing to read "Mike Mathis", with a long horizontal flourish extending to the right.

Mike Mathis
Regulatory Engineer
