

Please note that the following comments have been added to the Users Manual for clarification. The Users manual must be opened in Adobe reader 5. The users manual, Block Diagram and schematics have been provided in response to Correspondence Reference Number 5372.

- Note 1: Max 2 characters are allowed in every single transmission.
- Note 2: This product is utilized for control purpose. Continuous data transmission will not be adopted.
- Note 3: The duration of each transmission shall not be greater than one second and the silent period between transmissions shall be at least 30 times the duration of the transmission but in no case less than 10 seconds.

Please note that the descriptions in the Block diagram and Schematics were incorrect from the manufacturer. The designation for this device is RF Module, not RF Modem.

Respectfully
ATCB
