Introduction of new host platform for Radio FCC-ID QHYRPM-A5A11-B66

Company Name: CommScope Technologies, LLC
FCC ID: QHYRPM-A5A11-B66

To Whom It May Concern,

FCC ID: QHYRPM-A5A11-B66 will be examined against the introduction of a new host platform, RP5200.

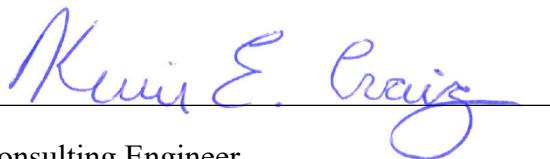

This new platform will be used in addition to the current approved platform RP5100.

There have been no hardware changes to the radio module, or the antenna mounted to the module from the previous filing, original grant date 08/21/2019.

Description of RP5200 host changes relative to the RP5100 host:

1. SOC – The System-on-Chip was upgraded to a new device
2. DDR memory was changed from DDR3 to DDR4
3. System clock circuits were upgraded to a new chipset
4. Ethernet was upgraded to add capacity
5. The data and power interface to the main board was modularized.

Sincerely,

A handwritten signature in blue ink that reads "Kuni E. Craig". The signature is fluid and cursive, with "Kuni" and "E." on the first line and "Craig" on the second line.
