Re: Class 2 permissive change for Part 15 spread spectrum transmitter

Applicant: Robertshaw Controls Company d/b/a Invensys Home Control Systems

Description: Wireless Thermostat

FCC ID: **QI2-EMST-100**

Date of original grant: 3 September 2002

Dear Mike,

A class 2 permissive change is being requested on the referenced device for the following reasons:

The following changes have been made to the originally certified version of this product:

- 1) Transmitter occupied bandwidth is less (loop filter values have been changed)
- 2) The baseband filter of the receiver section has been changed.

All other transmitter characteristics are unchanged. i.e. data rate, antenna gain, etc.

If you have questions or need clarification on this matter please don't hesitate to call.

Sincerely,

THOMAS N COKENIAS
Agent for Robertshaw Controls Company
