

Class II Permissive Change Letter

Date: April 2, 2025

This is to request a Class II permissive change for **FCC ID: QI3BEC-4900-5G**, originally granted on 03/17/2025.

The major changes filed under this application are:

Change #1: The certified module (FCC ID: QI3BEC-4900-5G; model: BEC 4900 5G) is integrated into three new platforms (Product: CBR5 Outdoor Router, Brand: BEC by BILLION®, Model: BEC RidgeWave® 4900 5G, RidgeWave® 4900 5G and BEC 4900 5G).

Change #2: Only the 5G NR n48 band is enabled on the platform, other WCDMA, LTE and 5G NR bands are disabled through software.

Change #3: Reduce the Output Power through firmware.

Change #4: Add a different type of antenna as the following table.

Brand Name	Model No.	Type	Gain (dBi)	Remark
BEC	DA-B48G-12-01-BL	PIFA	13.5	RX
			13.7	TX/RX
			13.3	RX
			13.6	TX/RX

Except for the above differences, the hardware design is identical with the original grant.

Should you have any enquires or comments, please have my best attention.

Sincerely,

Name: Kevin Lien
