

To whom it concerned.

Hereby, we, Huawei Technologies Co., Ltd. Declare that the access router AR1220W and AR1220W-S has the same hardware and architecture, the only difference is the software function, and the difference between AR1220VW and AR1220W is that the former support voice function while the latter can not.

These 3 routers has absolutely the same hardware and software design in the WLAN part.

Yours Sincerely,

Paul Zhang
