## Manual

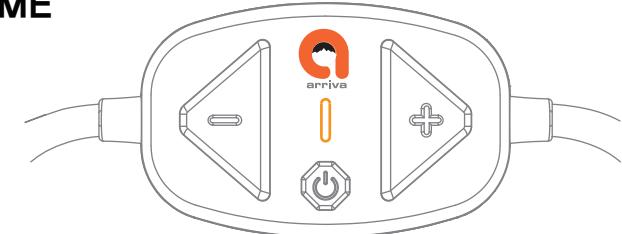

Buyer Version.

## QUICK-START GUIDE TO USING YOUR ARRIVA, PAIRING FOR THE FIRST TIME

- Your ARRIVA must be off with no blinking light.
- Press and hold Power button during 7 seconds for Pairing. Red light will be on.
- Turn your cell phone or music player's Bluetooth feature on, then press 'Pair' .
- Your ARRIVA will quickly 'Pair' with your device, and its blue light charge from continuous to blinking. The pairing ID is 0000.
- Then click 'Link' (or on some phones 'Connect' ) on your device, and the device and your ARRIVA are paired, linked, and ready to provide voice and music to your ARRIVA.
- All music play functions are controlled by your cell/smartphone and music player.  
The volume controls on your ARRIVA may or may not control the volume set on your cell/smartphone, or music player.

## ANSWER & END CALL

- When the phone's ringing, press Power button 1 time.
- If you will hang up, Press Power button 1 time again.
- Making call and Redialing will be activated on pressing Power button for 1 second.
- Press power button for 1 second if you want to transfer talking between BT headset and phone.

## MUSIC PLAY

- Press power button for music play and pause. If you want to stop music, press power button for 1 second.
- Next and previous music can be activated by pressing '+' or '-' button for 1 second.

## VOLUME CONTROL

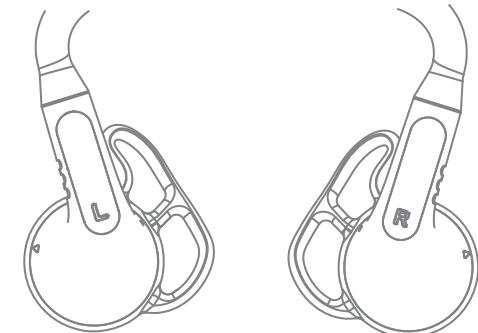

- Press '+' button for volume up and '-' button for volume down.

## BATTERY

- Charge fully before using. The ARRIVA must be turned off before charging. Charging time is about 100minutes. Your fully charged ARRIVA will deliver about 4.5 hours of talk, about 5 hours of music play, and about 10 days on standby.
