Hi Mike,

Re-Question #1: Attached please find the new test report and the RE test result. The 29.1 dBuV/m@ 44.24MHz in page 9 of test report was typed error. The correct is 27.1 dBuV/m@ 44.24MHz. We can see the result of the test at RE\_TEST.pdf. I'm sorry for the typing error.

Re-Question #2: Attached please find the External Photos, Internal Photos and Setup Photos. The password of every files are "etc". I'm appreciating that the all cases modified by TCB before.

Re-Question #3: Attached please find the confidentiality letter. Thank for your reminding.

Best regards,

Joe Hsieh  
ETC, Taiwan
