For best use of this device we recommend carefully
reading this user manual and keeping it for your records

- Package contains
- a. Wireless headphones
 - b. USB charging cable
 - c. Manual
 - d. Extra earbuds

FCC Information

This device complies with Part 15 of the FCC rules.
Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received; including interference that may cause undesired operation.
Federal Communications Commission (FCC) Statement
This Equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment. Tested to comply with FCC standard. FOR HOME OR OFFICE USE.

Warning :

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.

Battery information

Your device is powered by a rechargeable battery. The full performance of a new battery is achieved only after two to three complete charge and discharge cycles. The battery can be charged and discharged hundreds of times, but it will eventually wear out.

Do not leave a fully charged battery connected to a charger, overcharging may shorten its lifetime. If left unused, a fully charged battery will lose its charge over time.
Never use any charger that is damaged.
Leaving the device in hot or cold places will reduce the capacity and lifetime of the battery. Optimal temperature for the battery is between 15°C and 25°C (59°F and 77°F). A device with a hot or cold battery may not work temporarily, even when the battery is fully charged.
Do not dispose of batteries in a fire as they may explode. Batteries may also explode if damaged. Always dispose of batteries according to local regulations. Please recycle. Do not dispose as household waste.

PLEASE READ THESE INSTRUCTIONS CAREFULLY BEFORE USING YOUR WIRELESS HEADSET KEEP THESE INSTRUCTIONS FOR FUTURE REFERENCE
Your Wireless Headset has an internal rechargeable battery. Improper usage may result in the Wireless Headset becoming hot, ignite or burst and cause injury if exposed to conditions of abuse. Be sure to follow the safety warnings listed below:
1. Do not disassemble, throw away or damage the Wireless Headset.
2. Store the Wireless Headset in a dry place, keeping it away from damp corrosive materials and environments such as salt air.
3. Keep the Wireless Headset away from direct sunlight, fire and high voltage equipment. Do not store the Wireless Headset inside a car during hot weather. Remember a closed car acts as a green house allowing the inside temperature to possibly reach over 200F.
4. The Wireless Headset is not a toy. Please keep it out of the reach of young children.
5. Please do not discard the Wireless Headset. Consult your local waste collection agency for proper disposal or recycling methods. You may also contact "Call2Recycle" at 877-273-2925 or online at "call2recycle.org" for a battery recycling drop off location near you.

Charging the battery
This device has an internal, rechargeable battery.
1. Plug the charger cable into the headset.
2. Connect the charger to a USB power source. The red indicator light will display during charging. If charging does not start, disconnect the charger plug it in again, and retry. Charging the battery fully may take up to 2 hours.
3. When the battery is fully charged, the red indicator light will turn off . Disconnect the charger from the USB power source and the headset. The fully charged battery has power for up to 3 hours of talk-time or up to 6 hours of standby time. However, the talk and standby times may vary when used with different devices, settings, and environments.

2.Instruction
