

Date: June 25, 2003

To: FCC Equipment Authorization Branch and Elite Engineering

Subject: Application for certification, FCC ID QKS-CX2-1100 and  
Request for Confidentiality per 47CFR §0.459

Ladies and Gentlemen:

SOPHIA Communications, Inc. hereby submits in the form of the attached exhibits, information pursuant to obtaining a grant of Certification for its Model CX2-1100 "DataHawk" base station data transceiver under the trade name CX2 Technologies.

SOPHIA Communications, Inc. respectfully requests that the following portions of its application for certification be kept confidential: Circuit Description, Schematic Diagrams, Block Diagrams.

SOPHIA Communications, Inc. views the above named records to be proprietary trade secrets which it attempts to completely block from public view. Public release of those documents on the FCC website or other means of disclosure could harm its competitive position in the radio telemetry industry and would be detrimental to its potential business success.

Sincerely,

---

Thomas P. Houck  
President  
SOPHIA Communications, Inc.
