

Exhibit 9 - RF Exposure Information

9.1 **Actions that may have a significant environmental effect, for which Environmental Assessments (EAs) must be prepared §1.1307(b)**

Not Applicable

As the output power of this device does not exceed 100 W PEP, no evaluation is required.

Reference §1.1307(b)(1)

“However, a determination of compliance with the exposure limits in §1.1310 or §2.1093 of this chapter (routine environmental evaluation), and preparation of an EA if the limits are exceeded, is necessary only for facilities, operations and transmitters that fall into the categories listed in table 1, or those specified in paragraph (b)(2) of this section. All other facilities, operations and transmitters are categorically excluded from making such studies or preparing an EA, except as indicated in paragraphs (c) and (d) of this section”.
