The public disclosure of these matters might be harmful to the Applicant and provide unjustified benefits to its competitors.

	Exhibit	Description
PERMANENT	1	Block Diagram

	3	Parts Lists and Tune-Up Procedure
	4	Schematics
	5	Internal Photos

Internal Photos (#5) contain proprietary information that is supplied to any designated third-party technical expert only under non-disclosure provisions.

The request for Long-Term Confidentiality of the User's Manual (#6) is submitted because of the highly technical nature of the manual and of the product. The **QLJ3GRFN** system operates in RF spectrum licensed from the FCC. The configuration, maintenance, and support of the system require highly-trained technical personnel trained

by the Grantee, and **QLJ3GRFN** is serviceable by only the Grantee or a designated third-party technical expert under non-disclosure protections. The User's Manual (#6) contains proprietary information that is supplied to any designated third-party technical expert only under non-disclosure provisions.

The Applicant understands that pursuant to Rule 0.457, disclosure of this application and all accompanying documentations, where applicable, will not be made public before the date of the Grant for this application.
