RE: Request for Confidentiality for FCC ID: **QLJNIB-002**

To whom it may Concern:

Pursuant to § 0.457 and 0.459 of the Commission's Rules (CFR 47), and § 552 (b) (4) of the Freedom of Information Act, Tecore, Inc. D/B/A Tecore Networks hereby requests Long-Term confidentiality and treatment of certain information accompanying this application. The materials contain trade secrets and proprietary information not customarily released to the public. The public disclosure of the matters might be harmful to the Applicant and provide unjustified benefits to its competitors.

The request for Long-Term Confidentiality of Items 1 – 7 listed below – Operational Description, Parts List, Tune-Up Procedure, Internal Photos, User's Manual, Block Diagram, and Schematics – is submitted because of their highly technical nature and that of the end product. The **QLJNIB-002** system operates in RF spectrum licensed from the FCC. Specifically, with respect to Item 4 – Internal Photos – the internal components of **QLJNIB-002** are not accessible to end users. The configuration, maintenance, and support of the system requires highly-trained technical personnel trained by the Grantee, and **QLJNIB-002** is serviceable only by the Grantee or a designated 3rd party technical expert under non-disclosure protections. Additionally, with respect to Item 5 – User's Manual – the document contains proprietary information that is supplied to designated 3rd party technical experts only under non-disclosure provisions. Sales and distribution of the User's Manual occur only in the presence of such non-disclosure protections.

Tecore Networks also hereby request Short-Term Confidentiality for 180 days after the grant as outlined in the Public Notice DA – 04-1705. This provision will give Tecore Networks temporary confidentiality of commercially sensitive information prior to product release.

The requested Long-Term and Short-Term Confidential Exhibits are listed as follows:

LONG-TERM AND SHORT-TERM CONFIDENTIAL LIST		
	Exhibit	Description
LONG-TERM	1	Operational Description
	2	Parts Lists
	3	Tune-Up Procedure
	4	Internal Photos
	5	User's Manual
	6	Block Diagram
	7	Schematics
SHORT-TERM	8	External Photos
	9	Test-Setup Photos

The Applicant understand that pursuant to Rule 0.457, disclosure of this application and all accompanying documentation, where applicable, will not be made public before the date of the Grant for this application.

Thank you,

Carli Rae Bernal
