RE: Mesure Technology Co, Ltd.

FCC ID: QLQST313

After a review of the submitted information, I have a few comments on the above referenced Application.

1) Since only the receiver is applicable to the Declaration of Conformity, only the receiver should be labeled for such. Please correct the labeling.
2) Please provide a photograph or drawing that show the placement of the label on the device.
3) Please provide information to show compliance with 15.231(a)(1)-(3) requirements. The FCC requires plots that show compliance with these requirements. These should show that the normal duration of transmission meets the timing requirements. A couple of plots may be necessary, but based on this device, since it can repeat transmissions every 15 seconds based on measurements it would be recommended to show that a single set of readings that cause an alarm condition cause only 1 transmission (i.e. show only one transmission in 30 seconds and also the duration of the transmission).

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
