Attention: Ron Chernus

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the short term confidentiality request include keeping the external view of the device confidential. Please note that the external view of the device is fully visible in the HAC report (see pages 14 and 16 of the HAC report). The device thus will be visible once the HAC report is uploaded to the FCC server. If the external photos of the device is desired to be held in short term confidentiality, please remove the setup photo from the HAC report and provide it in a separate setup photo exhibit.
