Notice#1

Question #1: This device is a PC peripheral, it is also a receiver to work with a Part 15 transmitter (FCC ID: QMTSP-100T). Due to this reason, a composite filing is required: one under "JBP - Personal computer and PC peripheral", one under "CYY - Communication receiver w/Part 15 transmitter". The application is for JBP, please submit a new application for CYY. Please make sure "a typical signal or an unmodulated CW signal at the operating frequency of the EUT shall be supplied to the EUT for all tests." Your test report in this filing is not good for CYY filing.

Best Regards,
Helen Zhao
