

FROM THE CLASSIC 60's
BIG SCREEN ADVENTURE

INVASION EARTH

STARRING
PETER CUSHING
AS DR. WHO

2150 A.D.

FULL RADIO COMMAND

THE ADVENTURE
REUNITES CUSHING, BAKER, AND
THE ORIGINAL CAST OF
THE ORIGINAL

AVAILABLE IN A COLOUR

With the success of DR. WHO AND THE DALEKS in 1965, it
was not long before a sequel was planned.

In 1966 DR. WHO DRAWS INVASION EARTH 2150AD for the
big screen. Baker, Butler and Butler then helped!

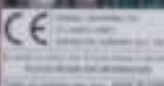

In this sequel with the DALEKS, the Doctor discovers
that his old adversaries have changed the Earth and
are planning to use it as a weapon against the
winning the very end!

Peter Cushing and Barbara Tinsley were joined this time round by Robert Cribbins as
Swanwick Professor Ian Campbell and Jill Cairns as Lady along with Ray Monte,
Andrew Fair and Philip Madoc.

Product Enterprise Ltd is proud to present the authentic, scaled
replica from the 1966 film DALLA INVASION EARTH 2150AD
of Dr. Who's most amazing adversary featuring full
Radio Control, special lighting from the movie
light and sound - prepare to re-live
the excitement of the DALEKS
as the BIG SCIENCE!

For the first time in a long time, the Doctor has a new enemy to fight. The Daleks have returned to Earth and are planning to use it as a weapon against the winning the very end!

The Doctor has a new enemy to fight. The Daleks have returned to Earth and are planning to use it as a weapon against the winning the very end!

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, use and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and the receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is needed
- Consult the dealer or an experienced radio/TV technician for help

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment.
