RE: FCC Class 2 Permissive Change  
FCC ID: QOQWT41E  
IC: 5123A-BGTWT12

Dear Application Examiner

Bluegiga Technologies Oy / Bluetooth module, FCC ID: QOQWT12 and IC: 5123A-BGTWT12 would like to have your authorization for a Class 2 Permissive Change. The C2PC is to make a HW change to update the balun to a one with smaller package but with similar characteristics as with the original version. Test report is provided to show that the RF characteristics have not changed. The change is shown in the layout pictures below.

**Figure 1: Original WT12****Figure 2: WT12 after the C2PC**

Best regards

Pasi Rahikkala  
HW Development and Compliance Engineer
