

EVERYDAY WIRELESS LLC

... making your life safer and easier

November 12, 2004

Mr. Tim Dwyer
TUV Rheinland of North America
12 Commerce Road
Newtown, CT 06470

My Dwyer:

This letter is to provide my assurance that the Everyday Wireless Model TX-3 transceiver is a data only radio that bursts data at a duty cycle of 1% or less. This duty cycle is set by firmware at the time of manufacture, and the user does not have access to such adjustments.

Please contact me should you need further clarification.

Sincerely,

Josef K. Winkler
President
