

27/04/2010

To whom it may concern,

WaveIP ensures that the device FCC ID: QQ2-WA605X is limited to professional installation, by the following:

1) Marketing:

The device is not sold retail, to the general public or by mail order. WaveIP sells the device only to its certified distributors.

2) Professional installation:

The device must be installed and controlled by specially trained professionals. WaveIP provides its distributors with training programs, which focus on installation and maintenance and authorized personnel who passed WaveIP training to perform installation and maintenance. The installation requires knowledge in radio equipment handling and technical knowledge concerned with operation of WaveIP device. Installation guidelines must be followed to ensure proper operation of the device.

3) Application:

The intended use is generally not for general public. It is generally for industry/commercial use. WaveIP's end-users include cellular and fixed operators, service providers and IT departments of utility companies and enterprises.

Sincerely,

Amit Arazi

Application Engineer
