

USB Drive User Guide

FCC NOTICE

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES.
OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITION:
(1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE, AND
(2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED,
INCLUDING INTERFERENCE THAT MAY CAUSE UNDERSIRED
OPERATION.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures :

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit difference from that to which the receiver is connected.
- Consult the dealer of an experienced radio/TV technician for help.

NOTE : The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user' s authority to operate the equipment.

USB DRIVE ***USER GUIDE*** **PENG YOU**

1. What is USB DRIVE ?

"USB Drive" is a compact, light-weight, and slim device. It is perfect for carrying around in your pocket, on a key chain, or even around your neck. It is the most easily transportable memory storage device around.

By using the USB port, USB Drive is capable of extremely quick data transfer. In addition, the transportable disk does not require any extra cables nor does it require any additional power (i.e. batteries).

As soon as you plug the device into a computer(Desktop or Notebook and etc..) with a USB port, the device is ready to be used. In other words, you do not need to install any additional software to use USB Drive.

2. Operating System Environment

- Windows 98
- Windows 98SE
- Windows ME
- Windows 2000
- Windows XP
- Windows CE 3.0 (The PDA to support USB port or contain an USB port internally)
- Macintosh 8.6 Above
