Dear Sir,

We would like to update the internal photos of Bluetooth(class I) on FCC website. The reason is an amplifier on the PCB during the testing but there is no amplifier of the internal photos on FCC website.

There were some similar Bluetooth devices proceeding FCC approvals at the same time so that we put wrong internal photo of FCC ID: QQGBU-2096-1.

Please kindly help to update the internal photo.
If you have any further questions, please let us know.

Thank you in advance and best regards,
