Certification Department

Re: FCC Part 15 Certification for Adaptive (FCC ID: QQN16363)

We are submitting an application for Class II permissive change for Adaptive's model 16363 wireless transmitter operating under FCC part 15.247. Class II permissive change is requested because manufacturer intends to add the following antennas to already approved FCC ID: QQN16363

- i) Yagi Antennas:
  - a) Y8963 Gain: 8.15dBi
  - b) Y8966 Gain: 11.14dBi
- ii) Omni-directional:
  - a) FG9023 Gain: 5.14dBi
  - FG9026 Gain: 8.14dBi

Please feel free to contact me with any questions.

Best regards,

Michael Buchholz  
EMC Manager
