Hi Mike,

Thank you for your kind comments. According to the your comments, we re-test the EUT and then send revised test report and test setup to you. Also, enclosed please find a block diagram in this email.

Have a nice day!

Best Regards,

Question #1: EUT is equipped with external audio jack which connect to the cellular phone. Per ANSI C63.4 Section 13.1.1.1 requirement, external audio source shall be used. In order to simulate the worst operating conditions,

please connect external audio jack to CD player and turn the volume to the highest. Repeat the tests.

Best Regards
