Checklist.doc

Hi Alice,

Technical requests below. I had already requested the technical description, however also please send test report again.

Marianne

Technical review (what I could do) is complete, checklist attached, and in the folder (H/EMi/METrak Folders/FCC ID QSJNITZAN-12). RT questions below. There seems to be a problem with the test report- the data pages keep giving me an error, and then are not making all of the data viewable. Also, there is no tech description.

RT Questions:

1. There seems to have been an error transmitting the test report- the data pages will not open properly, so that all of the data may be viewed. Please resend the test report.
2. Please submit a technical description of the EUT.

Hi Greg,

New one but definitely comes after the demented mouse.
Just dump into a folder and I'll take care of it when I'm in. Also, I
can grant from here if you send a checksheet. Thanks.

Marianne

Hi Marianne,

Please see attached file for new application apply FCC
cert.

FCC ID: QSJNITZAN-12

Thanks.

Best Regards
Alice
